5. Billing and Collection Requirements

5.01 Bills Based on Meter Readings

- (A) Except as provided in Section 7.01, charges for energy and demand will be based on the readings of meters installed by the Utility and read monthly by the Utility or its designee. The Utility will separately bill for each meter at a customer's premises. Readings from two or more meters will not be combined.
- (B) It is the Utility's goal to read every meter monthly. Only when severe weather conditions prevent the meter reading or other circumstances make it dangerous or not reasonably feasible to read the meter will the Utility not read a meter monthly.
- (C) If the Utility is unable to read a meter during the scheduled meter reading cycle, the Utility will estimate the consumption for the billing period considering the customer's usage during the same month of the previous year or the amount of usage during the preceding month or months. Every estimated billing will contain a statement that the billing is based on an estimated meter reading.

5.02 Monthly Billings

The Utility will bill monthly for services rendered. Charges for service will commence when the service is installed and energized.

Customer's may elect to receive monthly bills electronically.

N

Bills are due and payable on the date rendered. Unless personally delivered by the Utility, a bill is rendered on the billing date.
